

# Beers Bulletin

## Math

We are working through Chapter 6 and having fun learning multiplication. So far we have learned how to multiply with 2,3,4,and 5. Next week we will be learning how to multiply with 0 and 1, as well as finishing up the chapter.

## Reading

Every week we read with groups, with partners and individually. In groups, students are either reading *Because of Winn-Dixie, Stuart Little, or Box Car Children.* We have begun *Battle of the Books*. All of the kids will be split into mixed grade and reading level groups. Students will be given books to read independently and then take comprehension quizzes. These quizzes will give their team points!

## Writing:

This week we learned the rules to capitalizing a title and started to learn about making words plural. We are also learning about how to choose more creative words in our writing.

## Science:

This week we finished up learning about our solar system. Next week we will take our test. To celebrate this awesome unit we are going to the Planetarium at Peirce College on the

28th! I have the chaperones I needed so we are all set. We will also be stopping at MOD pizza and the kids are very excited for that.

## Bible:Nathan 1/16

1Corinthians 4:2, Moreover, it is required of stewards that they be faithful.

## A note from Mrs. Beers:

The flu season seems to be setting in, try to take this weekend to get rest.

# Have a wonderful weekend!
