

Beers Bulletin

Math

We just finished Chapter 6 and the kids did awesome! Next week we will be starting Chapter 7. In this chapter we will begin to learn about division.

Reading

Every week we read with groups, with partners and individually. Individually students read and answer comprehension questions for a Battle of the Books book. In just two weeks, most everyone in our class has read an entire chapter book!

Writing:

This week we learned about plurals, abbreviations and dictionary skills. We are continuing to learn about using voice and adding details to our writing.

Science:

This week we took our test on the Solar System. To celebrate this awesome unit we are going to the Planetarium at Peirce College on the 28th! We will also be stopping at MOD pizza and the kids are very excited for that.

School auction:

The school auction will be here before we know it! At our assembly students learned how to sell tickets for the

auction. I am excepting items for our basket any time!

Bible: Laz at chapel

John 3:17, For God did not send his son into the world to condemn the world, but in order that the world might be saved through him.

Dates to remember...
