November 13, 2018

Dear NCS Family,

We are pleased to announce that the Wolverine has been chosen as the new mascot for Northwest Christian Schools of Lacey.

Several factors were considered in the administration's selection and its approval by the board. While the campus-wide polls revealed no definitive preference among the three mascot choices presented, there were several other criteria that influenced the decision. The Wolverine is a local animal that lives in the North Cascades and presents an image that is consistent with the name of our school. The administrative team feels the Wolverine presents an image that is suitable for all ages and grades. The Wolverine will also be a mascot that is unique to our school. None of the schools in this area or the schools we compete against athletically have the Wolverine as a mascot.

The Wolverine mascot will be adopted immediately by Northwest Christian Academy and Northwest Christian Preschool. Spirit wear and other expressions of the mascot will be soon available. Northwest Christian High School will continue as the Gators for the remainder of this year and will transition to the Wolverines at the beginning of the next school year. This transition time in the high school will allow our students to finish out the year with the same mascot with which they began.

We continue to be excited at the opportunities before us to unite the schools on our campus! We look forward to our bright future together as the schools of the Northwest Christian Schools of Lacey. To God be the glory!

In His Service,
The NCS Administrative Team
