

Dear Parents,

Thank you so much for your support, teamwork, and encouragement this year! We have had an amazing year with such a bright and sweet group of students! May God bless you with a summer full of great memories and relaxation with your new 5th grader!

As this year comes to a close, we wanted to take a brief moment to attach a few important concepts you may want to review with your child through the summer. With a long break ahead, it is important to keep these concepts fresh in order to start the next year strong.

Math- It is important that students know their multiplication/division math facts by heart. Online games/apps are a good way to practice.

Reading- Keep up the great work with reading at least 20 minutes a day. Take a few trips to your local library or bookstore to pick out interesting books.

Use the attached questions and answer sheets as a way to check your child's comprehension and understanding.

Strategy Notebooks- Check out the math and reading strategy notebooks that your child brought home this week. It is a great resource to review concepts that we have learned this year!

Great Educational Websites (with minimal ads):

- *Funbrain.com* – great resource for reading and math (including games)
- *Softschools.com* – has resources for math, language arts, science
There is a great 4th grade reading comprehension with quiz!
- *MathPlayground.com* – fun resource for math games and activities
- *CoolMath4kids.com* – math games and resources
- *Scholastic.com/teachers/story-starters* – a fun way to write stories
- *ARbookFinder.com* – This site helps parents know what grade level a book is. Type in the name of the book to make sure it's the right level for your child. (Ex. 4.1= 4th grade 1st month, 4.5= 4th grade 5th month)
